To: A WALK ON THE WILD SIDE COMPANY

From: LAURA

First of all, thanks for your letter. It made me realize again how special this company is. Your commitment and generosity to this project have been complete since we began work, and are primarily responsible for the success of the production.

*Producing Directors*  
Laura Zucker  
Allan Miller

The difficulties in implementing the new ending, or making any other substantial changes in the text and music at this point, are several. Will is aware of the complexity of the problems-- the extent of the theatre's future participation in subsequent productions, availability of other creative personnel, such as the lighting designer, and space availability (we began casting our next production, a revival of THE FOX, this week!).

Thanks again for your genuine concern about the future well-being of A WALK ON THE WILD SIDE. I hope Will and Pat will see the wisdom of making sure you are all connected with project as it goes on...
